## **K2 Gold Announces \$1.2 Million Flow-Through Private Placement**

*NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES FOR DISSEMINATION IN THE UNITED STATES*

**Vancouver, BC. July 27, 2023: K2 Gold Corp.** (“K2” or the “Company”) (TSXV: **KTO**; Frankfurt: **23K**; OTC: **KTGDF**) announces a non-brokered private placement to raise gross proceeds of up to C\$1,200,000 consisting of National charity flow-through shares (the “Charity FT Shares”) offered at a price of \$0.16 per Charity FT share.

K2 intends to use the gross proceeds of the Offering for a reverse circulation drill program at the Company’s Wels Gold Project in Yukon, anticipated to begin at the beginning of September.

The Offering is expected to close on or about August 15, 2023, and is subject to certain closing conditions including, but not limited to, the receipt of all necessary approvals including the conditional listing approval of the TSX Venture Exchange.

The Company may pay finders’ fees under the offering in accordance with applicable securities laws and the policies of the TSX Venture Exchange. The securities issued under the Offering will be subject to a hold period under applicable securities laws in Canada expiring four months and one day from the closing date of the Offering.

The Charity FT Shares will qualify as “flow-through shares” (within the meaning of subsection 66(15) of the Income Tax Act (Canada) (the “Tax Act”). An amount equal to the gross proceeds from the issuance of the Charity FT Shares will be used to incur eligible resource exploration expenses which will qualify as (i) “Canadian exploration expenses” (as defined in the Tax Act). Qualifying Expenditures in an aggregate amount not less than the gross proceeds raised from the issue of the Charity FT Shares will be incurred (or deemed to be incurred) by the Company on or before December 31, 2024 and will be renounced by the Company to the initial purchasers of the Charity FT Shares with an effective date no later than December 31, 2023.

Members of the Company’s management team may participate in the Offering including subscriptions from related parties of the Company as defined in Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions (“MI 61-101”). The participation of management in the

Offering is exempt from formal valuation and minority shareholder approval requirements pursuant to exemptions contained in sections 5.5(c) and 5.7(1)(a) of MI 61-101.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

### **About K2 Gold**

K2 is a proud member of Discovery Group and currently has projects in Southwest USA and the Yukon.

The Si2 Gold Project is located in Esmeralda County, Nevada, approximately 60km northwest of Tonopah, Nevada, and 20km northwest of Allegiant Gold's Eastside deposit (1.4Moz Au, 8.8 Moz Ag). The project is road accessible and consists of 118 BLM lode claims covering 986 Ha, under option from Orogen Royalties Inc. (TSXV: OGN). The claims cover an 8 km<sup>2</sup> area of steam heated alunite-kaolinite-buddingtonite alteration within a sequence of felsic to intermediate volcanic rocks with brecciation and strongly anomalous mercury. The alteration is interpreted to represent a high-level setting within a low-sulfidation epithermal gold-silver system. In this type of geologic setting there is typically minimal anomalous gold mineralization at surface, however, gold grades may increase at depth along controlling structures at critical locations in the hydrothermal system (i.e., boiling zones). The Si2 Gold Project was initially identified by the same exploration team that identified AngloGold Ashanti's Silicon project near Beatty, Nevada, and was staked based on its strong geological similarities to Silicon.

K2 is currently permitted, and planning to drill the Wels Project which is located in Western Yukon late summer 2023. The property lies approximately 40km east of the community of Beaver Creek and 60km south of Newmont Goldcorp's 4Moz Coffee deposit, within the traditional territory of White River First Nation. The land position consists of 350 contiguous Quartz Claims covering 7,200 hectares. Wels is underlain by metasedimentary and metavolcanic rocks of the White River Formation that have been intruded by a series of Triassic gabbroic sills and Cretaceous granitic plugs. This package has been cut by a series of WNW trending high-angle structures that host alteration and gold mineralization. Mineralization is noted in all rock types observed on the property to date and is associated with quartz veining, brecciation, and sericite alteration with anomalous As, Sb, and, locally, visible gold. Five discrete mineralized trends are currently known, with only one trend drilled to date, delivering encouraging assay results of 2.37 g/t Au over 28.5m and 10.38 g/t Au over 6.0m. All mineralized trends remain open along strike and approximately 80% of the property is currently unexplored.

The Mojave project is a 5,830-hectare oxide gold project with base metal targets located in California. Multiple previously recognized surface gold targets have been successfully drilled in the past, most notably by Newmont and BHP. Since acquiring the property, K2 has completed geochemical and geophysical surveys, geologic mapping, LiDAR, a WorldView 3 alteration survey, and successfully completed a 17-hole RC drill program focused on the Dragonfly and Newmont Zones. Highlights from K2's drilling program include 6.68 g/t Au over 45.72m from surface at the Dragonfly Zone, and 1.69 g/t Au over 41.15m from 44.20m depth at the Newmont Zone.

K2 is committed to transparency, accountability, environmental stewardship, safety, diversity, inclusion, and community and indigenous engagement.

On behalf of the Board of Directors  
Anthony Margarit  
President and CEO

### **Cautionary Statement on Forward-Looking Statements**

This press release contains certain “forward-looking statements” within the meaning of Canadian securities legislation, including, but not limited to, statements regarding the Company’s plans with respect to the Company’s projects and the timing related thereto, the merits of the Company’s projects, the Company’s objectives, plans and strategies, the Offering and other project opportunities. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are statements that are not historical facts; they are generally, but not always, identified by the words “expects,” “plans,” “anticipates,” “believes,” “intends,” “estimates,” “projects,” “aims,” “potential,” “goal,” “objective,” “strategy”, “prospective,” and similar expressions, or that events or conditions “will,” “would,” “may,” “can,” “could” or “should” occur, or are those statements, which, by their nature, refer to future events. The Company cautions that Forward-looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made and they involve a number of risks and uncertainties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Except to the extent required by applicable securities laws and the policies of the TSX Venture Exchange, the Company undertakes no obligation to update these forward-looking statements if management’s beliefs, estimates or opinions, or other factors, should change. Factors that could cause future results to differ materially from those anticipated in these forward-looking statements include the risk of accidents and other risks associated with mineral exploration operations, the risk that the Company will encounter unanticipated geological factors, or the possibility that the Company may not be able to secure permitting and other agency or governmental clearances necessary to carry out the Company’s exploration plans, risks and uncertainties related to the COVID-19 pandemic, risks and uncertainties related to the Company’s ability to complete the Offering and the size of the Offering, the tax treatment of the FT Shares; the timing of the renouncement of the Qualifying Expenditures in favour of the subscribers, and the risk of political uncertainties and regulatory or legal changes in the jurisdictions where the Company carries on its business that might interfere with the Company’s business and prospects. The reader is urged to refer to the Company’s reports, publicly available through the Canadian Securities Administrators’ System for Electronic Document Analysis and Retrieval (SEDAR) at [www.sedar.com](http://www.sedar.com) for a more complete discussion of such risk factors and their potential effects. Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
